

The BH Fitness SB2 is a premium indoor cycle with a proven design and true road bike feel. The SB2 boasts a durable steel frame and reliable craftsmanship, from the friction resistance system for greater workout variety to the heavyweight flywheel for added momentum. Even the detailing of the high end automotive-grade paint finish truly sets this bike apart from the competition. The micro adjustable seat and handlebars ensure a custom fit and the motivational console provides plenty of user feedback to keep you in-line with your fitness goals.
